Subject: Re: Pitchfork Springs/Multicolorgreen-S027/033-Dale Rodgers

Thanks for the update Tom. Would you mind adding this additional detail to your earlier email so Joelle can send to the file?

Thanks again sir!

Dale was given our Large Mining forms and we called Mr. Mansfield during our meeting yesterday. Dale will be sending us a map hopefully today, with the current disturbance he would like to maintain until the LMO is approved. He has a contract with (a local farmer, Mr. Mayer) to complete the necessary regrading on the 18th of this month. He also will be sending us a letter committing to this reclamation on the 18th hopefully today.

Tom,

Did you discuss a timeframes to send requested info (letter) in on retaining his SMO status? Do you know when he plans on having the reclamation work done? Perhaps his letter will address this. I assume he's going to work with BLM on posting a bond for the federal land, or did you give him our forms to complete?

Also, just wanted to confirm that you have talked with Jerry Mansfield about your meeting with Dale yesterday also.

TX for documenting your meeting discussions.

W.

At 3:30 Pm on April 10, I met with Dale Rodgers to discuss his intentions regarding the Multicolor Green stone operations in the San Francisco mountains. He stated that he is working towards a LMO but for the time being until he can get there he has contracted a local farmer to come in and reclaim this road on the state ground to bring this operation under five acres(farmer's name, Jerry Mayer). The meeting was set up to discuss what we require for an LMO and what would satisfy the BLM, Jerry Mansfield out of Fillmore. I informed Dale that it was not necessarily appropriate for us to dictate what the BLM requirements are under the new 3809 rules. So, I gave him our general requirements for an LMO and told him that it would be necessary to work towards our filling out our LMO paperwork and getting it completed as soon as possible. I also wanted a letter from him explaining his intentions regarding the property and reclamation of the State land.
